KATA RULES

- For **brown and black belts**, the elimination system will be used. The competitors are divided into groups of eight. Each competitor in the group will perform his/her kata and the judges will rank the performance. The 4 highest ranking athletes from each group pass to the next round until only two groups of competitors remain, whereupon the Competitors with the highest score in each of the two respective groups are pitted against each other competing for 1st place (the loser taking 2nd place) and the Competitors having the second highest score in each of the two groups are pitted against the third highest score in the other group to compete for the two 3rd places (bronze finals).
- In the event that there are 3 competitors in a category, a single kata is preformed to determine the 1st through 3rd place.
- With 4 competitors, two groups of two are formed for the first round and the two winners compete for 1st place in the second round. The losers are both placed 3rd.
- With 5-10 competitors, two groups are formed. The three highest scoring athletes from each group will move to the next round as follows. The two first ranked athletes from each group compete against each other for 1st place. The second ranking from group A meets the third ranking from group B for 3rd place and vice versa. If the category has only 5 athletes, then athlete who placed 3rd in the larger group automatically wins the 3rd place on bye.

- If the number of competitors is 11-24, two groups are formed. After the first kata is performed by all the athletes in each group, the 4 top competitors form two groups of four after which the second kata will determine the ranking for the 6 competitors (3 from each group) that will proceed to compete in the third round for the medals in the normal manner.
- For all other belts (beginner to blue belt), the category will be in the form of a league, where each competitor will compete against all competitors within his/her category. For **ALL league categories**, each match will be judged using the Flag system, and each athlete will be assigned 2 points for a win and 0 for a loss.
- All Kata judges are prohibited from participating in the competition on the same day.
- For categories 1 to 15 and category 60, males and females (up to 11 years), will compete together.
- A competitor shall compete **ONLY** in the category that is considered in his/her level (age and grade).
- A minimum number of THREE (3) athletes are required to form a category. If only ONE or TWO (1 or 2) athletes are available for a category, then the category will be removed and the athletes will be transferred to a higher category (first by age then by belt).
- If an athlete is transferred to a category with participants of a different belt, the kata must performed must be changed accordingly.
- Only kata from the official kata list may be performed.
